

PREPARE TO BE FLOORED.

Valley Fog - White Oak Traditional

Cerused Greys on a Light Brushed White Oak

Light brushed textures hold the grey finish to provide a warm white oak plank. Traditional white oak has just the right amount of character and charm. White oak is usually straight grained, but can often be irregular, or cross grained. White oak has been widely used throughout history as a cornerstone wood for most any application and is the wood of choice for barrel cooperage for distilleries throughout history.

Flooring/Paneling

Great on walls and ceilings, perfect for floors!
